A Complete Guide For Your Garden Planting

MARTIN VIETTE NURSERIES

Northern Boulevard (25A), East Norwich

Long Island, New York

Telephone WE 1-2372 — if no answer PE 1-6255

2.3 Miles East of Route 107 Intersection

.85 Miles West of Route 106 Intersection

SHIPPING NOTICE

We do not ship any plants except:

PACHYSANDRA TERMINALIS—shipped in 1,000 lots only

PEONIES—add 10% to cover packing and shipping
minimum shipping charge \$1.00

IRIS—add 10% to cover packing and shipping
minimum shipping charge \$1.00

BUYING GUIDE

People often buy collected shrubbery (plants dug from woods) instead of nursery grown stock because of the low initial cost. However, losses after the first year generally prove that it is not such a bargain after all. Plants commonly collected are: Rhododendrons, Laurel, White Pine, Hemlock, White Dogwood, and Birch.

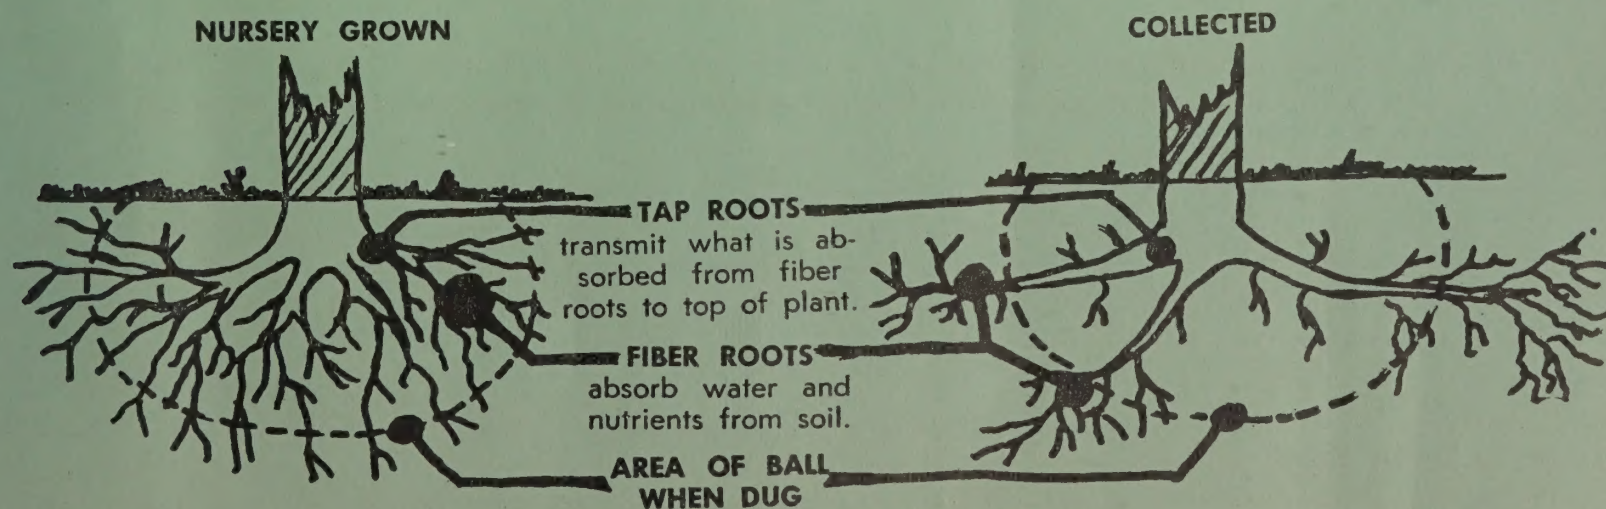

Listed below are the reasons why nursery grown stock, though initially more expensive, is usually in the long run cheaper than collected stock.

NURSERY GROWN PLANTS

1. Nursery grown plants are transplanted one to four times before they are sold. This transplanting promotes the growth of fibrous roots within a limited area, which, when dug, can be contained in the ball. The chances of this plant surviving are much greater than collected stock.
2. Nursery grown plants are sprayed to keep them disease and insect free.
3. Nursery grown plants are kept free of weeds, fertilized and limed to produce a healthy, vigorous root system and top growth.

COLLECTED PLANTS

1. Collected stock has usually never been transplanted. Because of this, the tap roots become elongated and the fiber roots grow farther away from the center of the plant. When dug, most of them are cut off and left in the soil. Therefore, the ball contains very few fiber roots. Without these fiber roots, which absorb water and nutrients from the soil, it sometimes cannot survive harsh winters and dry summers.
2. Collected stock takes its chances with nature.
3. There are no labor expenses involved in growing a collected plant.

HOW TO DISTINGUISH BETWEEN A NURSERY GROWN PLANT AND A COLLECTED PLANT

- | | |
|--|--|
| 1. Nursery grown plants are usually well shaped. | 1. Collected plants are many times irregular in growth, but at times are sheared in the woods. |
| 2. Nursery grown plants have a good healthy color. | 2. Many collected plants have a starved, light green color. |
| 3. Nursery grown plants have a firm, well-shaped ball. | 3. Collected plants usually have a flat, loose, irregular ball. |

People may at times unknowingly buy Southern shrubbery (shrubs grown in a warmer climate than ours). Although nursery grown, these plants are cheaper because of lower production and labor costs in the locality. However, when transplanted to the North, they are less able to survive the colder winters. Holly, Ilex, Boxwood, Azaleas, and Hemlock are frequently shipped from the South. It is advisable to ascertain the origin of the stock purchased, and check hardiness of variety.

Rhododendron Hybrids: When buying Rhododendron Hybrids, which are known for their beauty, color and large flowers, be sure you are buying plants raised from cuttings or grafts. These will remain true to the parent plant. Plants raised from seedlings, although they look the same in foliage, often are reverted poorer flower forms.

Hybrid Lilacs raised from cuttings grow healthier and produce better root systems, enabling them to survive summer heat better than *grafted* lilacs.

Perennials raised from seed instead of cuttings frequently give you irregular flowers, height and shape. This is not desirable where uniformity in shape and color is needed, such as garden borders (Candy-tuft, Carnation.)

Peonies: Buy peonies free from disease and nematodes for the best satisfaction in flowering. Make sure the plant was not grown on potato ground, as this is a common source of nematode. Many peonies on the market today are inferior in flower size, color and ability to withstand storms. This is because they are very old varieties or reverted seedlings. The only peonies that will give you the utmost satisfaction are ones which are of the newest and finest variety. Make sure your peony is tagged as to variety, not just color.

Grass Seed: The quality of the grass seed depends on the amount of annual seed content. Usually, the cheapest seed has the highest amount of annual seed. Annual seed tends to die off, leaving space for crab grass infestation. The best lawn mixture generally consists of perennial seed, which is made up of the type that will grow best in your locality.

DONT'S

- DON'T fill hole with water or water with a hose after planting unless you water very gently. A forceful stream of water and watering too fast from a hose causes soil to lose its structure and it becomes hard baked when dry. When possible water gently with a sprinkler.
- DON'T water every day. Water gently and thoroughly only when needed. Watering every day, heavily will only ruin the soil structure, impairing aeration and drainage, without raising the soil moisture content much higher.
- DON'T plant in solid peat.
- DON'T line hole with fertilizer, but mix it well with the soil.
- DON'T remove burlap when planting. (Bag will rot rapidly in the soil.) In most cases more damage is done to the plant by trying to remove burlap. When very heavy burlap is used it should be removed.
- DON'T untie burlap and push it to the bottom of the hole. This will result in a thick layer of burlap at the base and the plant roots will have a difficult time penetrating it.
- DON'T plant in hard pan or sandy, gravelly soil.
- DON'T mix sand with a clay soil to improve drainage. SAND + CLAY = CEMENT.
- DON'T plant annuals with perennials unless annuals are grouped by themselves. Annuals are vigorous feeders and will weaken the perennials which could result in loss of the perennials.
- DON'T feed after June 1st with a high nitrogen, high organic fertilizer. Most organic fertilizers break down slowly over a long period of time and may feed late into the fall when plants should be maturing and hardening for the winter.

PLANTING LEVELS

- Tuberous and thick rooted Perennials such as Peonies, Dictamnus, Hibiscus Crown 2 inches below surface of soil
- Rhizome type rooted plants such as German Iris, Iris pumila Top of rhizome at surface of ground
- Perennials which leaf from a crown, fibrous rooted, and tap rooted plants, such as
- Phlox, Hollyhocks Epimedium, Candytuft Crown on or just below soil level
(This planting level applies to most perennials)

In planting always plant perennials to the previous level. This level can usually be detected by the difference in color above and below the old soil line.

INCHES OF SOIL ABOVE BULBS WHEN PLANTED IN FALL; OCT. 1-DEC. 30

Crocus	3 in.	Snowdrop	3 in.	Grape Hyacinth	4 in.
Tulip	4 in.	Hyacinth	5 in.	Narcissus	5 in.

INCHES OF SOIL ABOVE BULBS WHEN PLANTED IN SPRING; MAY 1-JUNE 15

Tuberous Begonia	1/4 in.	Ranunculus	2 in.	Gladiolus	2 in.
Tuberose	2 in.	Canna	4 in.	Dahlia	4 in.

GENERAL PLANTING AND FERTILIZING PRACTICES

			NEW PLANTING	ESTABLISHED PLANTING
	<i>Inches Soil</i>	<i>Inches Peat</i>	<i>Cupfulls of fertilizer 5-10-5 Per Square Yard. At Planting Mix Well With Soil.</i>	<i>Cupfulls of fertilizer 5-10-5 Per Square Yard. After Planting. Apply On Surface.</i>
Trees	6	1	1	2
Shrubs	6	1	1	2
Narrow Leaf Evergreens	6	1	1	2
Broad Leaf Evergreens	2	1	1	2
Rock Garden Plants	6	1	$\frac{1}{2}$	$\frac{3}{4}$
Garden Perennials, Roses	5	1	$\frac{1}{2}$	$\frac{3}{4}$
Shade Plants	2	1	$\frac{1}{2}$	$\frac{3}{4}$
Peonies	8	1	$\frac{3}{4}$	$1\frac{1}{2}$
Iris	8	1	$\frac{1}{2}$	$\frac{3}{4}$
Poppies	8	1	$\frac{1}{2}$	$\frac{3}{4}$

1. Fertilize all items above, March 15 - May 15.
2. Fertilize peonies again September 1 - 30; fertilize roses again June 15.
3. Mix fertilizer and peat well with soil when planting.
4. Dig the hole three times as wide and two times as deep as the ball of earth.
- 5.

- (a) Fill hole to level A with good soil and tamp.
- (b) Place plant in hole, fill to level B and tamp.
- (c) Fill hole to level C and tamp firmly.

6. Water gently with a sprinkler until soaked down three feet or more. Don't water again until soil moisture is needed.

PERENNIALS

GENERIC NAME	COMMON NAME	HEIGHT	COLOR	SEASON	PRICE
<i>Acantholimon glumaceum</i>	Prickly Thrift	6"	Rose	July	1.00
<i>Achillea</i>	Yarrow				
ageratifolia (Grey Foliage)		8"	White	May-June	1.00
filipendulina 'Coronation Gold'		36"	Gold	June-Oct.	1.00
hybrid 'Kanarienvogel'					
(available 1962)					
Millefolium 'Fire King'		18"	Rose-red	July-Oct.	1.00
Millefolium 'Crimson Beauty'		20"	Red	July-Oct.	1.00

Recently the Long Island Chapter of the American Hemerocallis Society was organized. The aims and goals of the group are to acquaint people with the wonders of the modern daylily, to plan garden tours, and to enable members to see the finest of newest hybrids.

In its first year the Long Island Chapter has established a display garden at Salisbury Park, East Meadow. This display garden has an ever-growing supply of the best hybrids available today.

If you wish to apply for membership please contact Esther Deutsch, R. D. No. 4, Huntington, New York.

PEONIES — (3 to 5 Eyes Division)

(Heavier plants can be supplied. Prices on request)

Double White and Blush

Alesia—double white, late midseason	3.00
Belle Chinoise—double white	2.00
Betsy Ross—double pure white, early midseason ..	2.00
Blush Queen—double creamy white, midseason...	3.00
Festiva Maxima—double white, early	2.00
Flower Girl—blush, midseason	3.00
Frankie Curtis—double white, early	2.00
George W. Peyton—blush, midseason	3.00
Glorious—double white, midseason	2.00
Kelways Glorious—double white, early midseason..	3.00
Lady Of The Snow—white bomb	3.00
Le Cygne—double white, early midseason	3.00
Mary Auten—blush, late midseason	3.00
Mattie Lafuze—blush, late midseason	5.00
Mellow Moon—blush	3.00
Mme. Claude Tain—double white, midseason	3.00
Mrs. Frank Beach—double white, late	3.00
Northland—double white bomb	5.00
Nebraska—double white, late midseason	2.00
Nimbus—blush, midseason	2.00
Old Siwash—blush, early midseason	3.00
Plymouth—double white, late	3.00
Prairie Belle—blush	3.00
Sistie—double white, late	3.00
Siloam—double white, late	2.00
Snow Clouds—double white, midseason	3.00
Solange—blush, late	2.00
To Kalon—double, late	3.00
Tourangelle—double blush, late midseason	2.00
Victory—double white, late	3.00
White Delight—double white, early	3.00

Double Light Pink

Armance Dessert—late	2.00
Auten's Pride—late midseason	3.00

Doris Cooper—late midseason	10.00
Dorothy J.	5.00
Gilbert Barthelot—midseason	3.00
Hans P. Sass—late midseason	2.00
Jeannot—late	2.00
Lady Alex Duff—early	2.00
Moonstone—midseason	5.00
Mrs. Franklin D. Roosevelt—early midseason	3.00
Mrs. Livingston Farrand—late	4.00
Myrtle Gentry—late	3.00
Nick Shaylor—late	3.00
Rare China—semi double	3.00
Sylvia Saunders—semi double blush	3.00
Therese—early midseason	2.00
Virginia Lee—late	3.00
Victory Chateau Thierry—midseason	3.00
Vogue—midseason	3.00
Westhill—early	3.00

Double Darker Pink

Anne Bigger—late midseason	3.00
Blanche King—late	3.00
Capt. J.—midseason	3.00
Cathie Ann—late	3.00
Cinderella—midseason	3.00
Ella Christiansen—midseason	3.00
Grace Batson—late	2.00
Kelways Queen—late	2.00
Martha Bulloch—midseason	2.00
Miss Eckhardt—midseason	3.00
Mons Jules Elie—early	2.00
Nancy Dolman—late	3.00
Pandora—rose pink, early	3.00
Pink Glow—late	3.00
Pink Monarch—late	3.00
Prairie State—midseason	3.00
President F. D. Roosevelt—late	3.00
Souvenir De Louis Bigot—late midseason	2.00

Double Darker Pink (Continued)

Tondeleyo—late midseason	5.00
Walter Faxon—late midseason	2.00

Double Red

Big Ben—bright red, early	4.00
Bonanza—bright red, late midseason	4.00
Border Gem	4.00
E. G. Hill—deep rose, midseason	2.00
Fannie Lee—semi double red, midseason	2.00
Furnace—dark red, late	4.00
Inspecteur Lavergne—midseason	2.00
June Brilliant—dark red, late	2.00
June Giant—bright red, late midseason	5.00
Kansas—light red, midseason	4.00
Karl Rosenfield—dark red, midseason	2.00
Louis Joliet—dark red, early	3.00
Mathilda Lewis—very dark red, midseason	3.00
Marie Elizabeth—dark red, midseason	4.00
Mrs. Bryce Fontaine—late	4.00
Philippe Rivoire—dark red, late	3.00
Priam—midseason	3.00
Radiant Red—midseason	3.00
Red Cloud—bright red, late midseason	5.00
Red Feathers—red bomb, late	5.00
Rosalie—American beauty red	2.00
Ruth Clay—bright red, midseason	4.00
Ruth Elizabeth—bright red, late midseason	4.00
Santa Fe—dark red	3.00
Shawnee Chief—bright red, midseason	2.00
Tempest—dark red, midseason	3.00
Trumpeter—dark red, midseason	3.00

Double Near Yellow

Ada Priscilla—anemone type, midseason	4.00
Carolina Moon—bomb type	4.00
Primevere—midseason	2.00

Japanese White

Christine—midseason	4.00
Cordova	3.00
Isani Gidui—early midseason	3.00
Jan Van Leuven—midseason	3.00

Moon of Nippon—late midseason	5.00
Nome—early	4.00
Sitka	3.00

Japanese Pink

Antwerpen—medium pink	3.00
Aztec—deep pink, midseason	2.00
Bobby Ann Miller—deep pink, midseason	3.00
Bo Peep—orchid pink, midseason	2.00
Bowl of Beauty—rose pink, midseason	3.00
Doreen—two-toned pink, midseason	3.00
Glowing Ambers—rose pink, midseason	3.00
Largo—medium pink, midseason	5.00
Mr. G. F. Hemerick—rose pink, midseason	3.00
Sky Pilot—deep pink, late midseason	5.00
Tamate Boku—deep pink, late midseason	3.00
Westerner—light pink, early midseason	4.00

Japanese Red

Charm—dark red, late	3.00
Dignity—dark red	5.00
Gallant Red—dark red	3.00
Mount Palomar—midseason	5.00
Mrs. Wilder Bancroft—dark red, midseason	3.00
Nippon Beauty—dark red, late	2.00
Nippon Brilliant—bright red	3.00
Nippon Parade—midseason	2.00
Nippon Chief—medium red, midseason	2.00
Surugu—pure red, midseason	2.00
Sword Dance—dark red, late	3.00

Japanese Anemone Type Novelties

Bowl Of Beauty—reddish pink and white	3.00
Break-O-Day—shades of red	3.00
Do Tell—orchid pink and red	4.00
Fancy Nancy—cerise pink	3.00
Gay Paree—cerise center white	3.00
Prairie Affire—pink guards with red petaloids	3.00

Single White

Krinkled White—late	3.00
Le Jour—early	2.00
Pico—midseason	7.00
White Perfection—early	3.00

Single Pink

Angelus—light pink, midseason	3.00
Inca—deep pink, midseason	2.00
Mischief—light pink, midseason	2.00
Pink Bonet	3.00
Sea Shell—light pink, midseason	3.00
Town Crier	3.00

Single Red

Arcturus—dark red	3.00
Kankakee—dark red, midseason	3.00
President Lincoln—dark red	3.00
Red Velvet—dark red	3.00
Verdun—dark red	2.00

officinalis Hybrids

Avelyn—bright red	8.00
Beacon Hill—dark red	4.00
China Boy—red	7.00
Chocolat Soldier—dark red	8.00
Dakota—Brilliant red	5.00

 Ilex Opaca
 Pinus in var.
 Taxus capitata
 Sheared Hemlock

Berry Shrubs

Berberis	Red	Nov.-Dec.
Cornus florida	Red	Sept.-Oct.
Cotoneaster	Red	Sept.-Dec.
Euonymus alatus	Red	Sept.-Oct.
Ilex Aquifolium	Red	Nov.-Jan.
Ilex opaca	Red	Nov.-Jan.
Mahonia Aquifolium	Blue	Sept.
Pyracantha coccinea	Orange-Red	Nov.-Jan.
Viburnum carlesii	Red	Aug.-Sept.
Viburnum Opulus	Red	Aug.-Dec.

Shade Shrubs Deciduous

Abelia grandiflora	Ilex verticillata
(semi-evergreen)	Viburnum carlesii
Azalea	Viburnum Carlcephalum
Cornus florida	Viburnum Opulus

SEASHORE PLANTS

Exposed Seashore Plants

Arcotostaphylos uva-ursi—Bearberry
 Juniperus virginiana var.
 Juniperus chinensis var.
 Myrica pennsylvanica—Bayberry
 Prunus maritima—Beach Plum
 Rosa rugosa
 Opuntia

Sheltered Seashore Areas

Berberis—Barberry	Ilex
Clethra—Sweet Pepper	Juniperus
Cotoneaster	Malus
Cytisus—Scotch Broom	Picea
Euonymus	Pinus
Gleditsia—Honeylocust	Viburnum
Hedera helix	

GROUND COVERS

Ajuga genevensis reptans
 Anemone nemerosa
 Cerastium tomentosum
 Convallaria majalis
 Giant Form
 Cotoneaster
 Epimedium
 Ferns in variety
 Galax aphylla
 Gaultheria procumbens
 Hedera helix
 Helianthemum var.

Hosta
 Iberis sempervirens
 Iris cristata
 Juniperus horizontalis
 Lamium galeodolon variegatum
 Liriope
 Mazus
 Myosotis palustris
 Nepeta mussini
 Pachysandra terminalis
 Phlox divaricata

Phlox subulata
 Plumbago larpentae
 Podophyllum
 Polygonatum multiflora major
 Polygonum reynowtria
 Sedum (Dwarf varieties)
 Shortia galacifolia
 Thymus serpyllum
 Tiarella
 Veronica rupestris
 Vinca minor

WE CARRY MANY OTHER GROUND COVERS NOT LISTED

GENERAL INSECT CONTROLS

INSECT	PLANT	TIME TO CONTROL	MATERIAL
Soft and Hard Scale	Ornamentals, taxus	March-April	Dormant oil or Dinitro
Aphids	Perennials	May-June	Malathion
